

Production according to your wishes and dimensions

We manufacture carpets in individual shapes for yachts, boats, caravans etc. according to your specifications. A boat carpet is characterized by a special quality. These include predominantly UV resistance, water resistance (even against salt water) and high robustness. After all, the carpet should give many years of pleasure.

We are happy to assist you in the selection of advice.

Monday - Friday from 9:00 am to 4:00 pm - Tel. +49 33055 - 2 29 81

In order to make you an offer we need the following information:

Lay the individual old coverings in the same way as they really are. Take a picture of this as a whole picture.

Now please enter the width and length dimensions of the individual parts. If the new floorcovering should be in bar-top optics, also draw in the direction of the strip or mark the front of the bow. Indicate whether, or how many, push buttons are to be incorporated (number of pieces is sufficient for the time being).

We can leash your coverings with loop tape (for indoor use)

or with a UV-resistant, impact-resistant tape (for exterior and interior areas) border.

Sling band (inside)

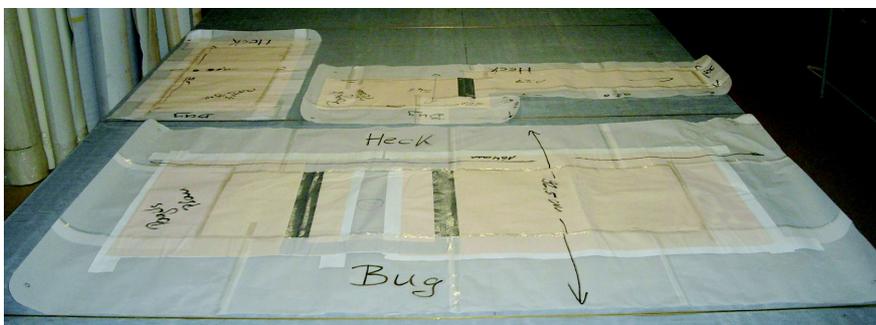

UV-resistant tape (inside and outside)

Create templates

Use a slightly firmer wrapping paper from the roll (do not use light film or wallpaper). Upon request, you will receive from us stencil film, width 150 cm, length from 5.0 running meters. (You can find them on our website).

Draft the shapes and trim the stencils 3-4 mm smaller. The positions of the push buttons are shown below.

Mark the top and the bow side on each part.

Please arrange adjacent parts with a continuous line.

If you are satisfied with our offer, send us the old coverings or the finished templates.

Furthermore we need from you:

- indication of the surface of your choice,
- your complete address with phone no. and e-mail address.
